TECHNICAL BULLETIN

Models affected: Blur 220i
Re: Oil Light

Dear Genuine Dealers,

Just a reminder about the Genuine Blur 220i Oil Light. This light is for maintenance purposes, it will come on every 1875 miles (3000 km) indicating the oil change is due. This light will need to be reset through the Speedo cluster. The procedure is in the owner's manual on page 12. Please be sure to pass this info onto your service writers and technicians. Below you will find a document with the resetting procedure.

Sincerely,

The Genuine Scooter Company
